

Refreshingly simple parking solutions

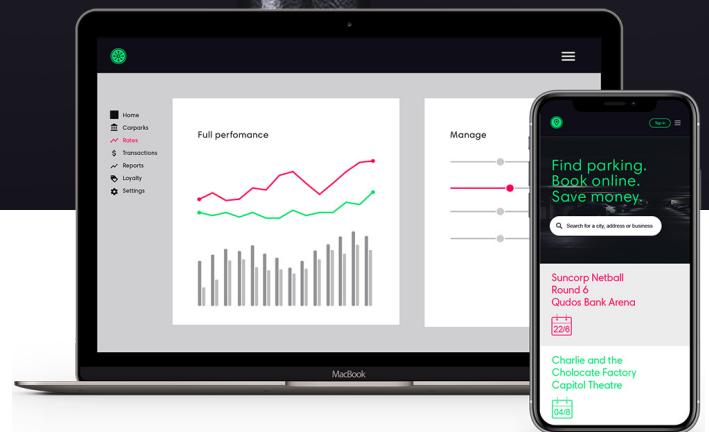

Watermelon is a leading edge technology solution that combines powerful integrated car parking management with a simplified digital user experience.

The Watermelon platform has been designed from the ground up as a fully cashless and paperless answer to the world of parking.

By eliminating cash handling, ticket issuing and paper receipting, the operational cost of Watermelon's cashless technology is significantly less than half that of the traditional cash and paper based systems.

The Watermelon design team brings together car park operators, parking software analysts, technologists and payments experts in the creation of a new level of sophisticated, but simple to use systems.

Powerful software management and reporting systems from decades of industry experience in the parking industry complement compact digital user interface modules to produce refreshingly simple parking solutions for you and your customers.

Innovative features:

- Credit card, phone, LPR, RFID & QR access and exit options
- Paperless electronic receipting
- No tickets. No paper receipts. No cash.
- Low cost of ownership based on a digital approach
- Cloud based technology
- Integrated software management solutions
- Real-time car park performance monitoring
